

# POLITICAL RISK ASSESSMENT III

## MEASURING POLITICAL RISK

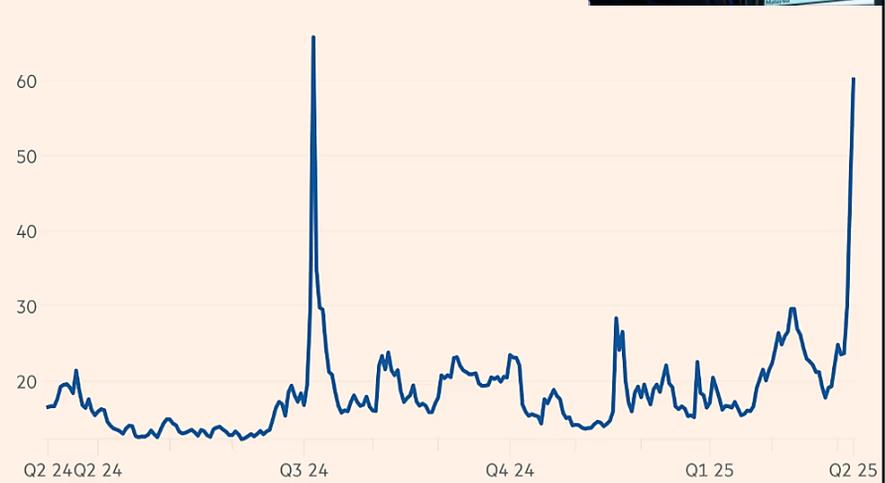

MICHEL-HENRY BOUCHET  
CIFE SEMINAR ROMA-BERLIN-NICE 2025

### IN SEARCH OF EARLY WARNING SIGNALS OF POLITICAL RISK INCREASE?

Wall Street 'fear gauge' leaps as traders take fright  
Vix volatility index (intraday high)

**There is no Canari in the Coal Mine:**  
Vix, rating agencies, bond yields, CDS...  
All react and overshoot EX POST  
Gold is a reliable risk barometer, though for Global Risk turmoil!

## TECHNIQUES TO ASSESS & MEASURE POLITICAL RISK

1. Economic intelligence: in-depth socio-political analysis (Huntington)
2. Checklist approach & Power structure:  
key political forces that affect a country's risk:
3. the **Prince Model**
4. Delphi technique
  - establish surveys
  - collect information and independent opinions
  - analyze results and make predictions
5. Ratings of country's political turmoil
6. Consultants on political risks
7. Early warning signals?

Michel H. Bouchet/SKEMA-CIFE 2025

3

### 1. INFORMATION SOURCES ON POLITICAL RISK: THE KEY ROLE OF **ECONOMIC INTELLIGENCE**

- MIG (UK)
- HISCOX
- PLATUS
- AON
- Global Risk Assessments
  - EIU
- COFACE, OPIC & MIGA, EULER
  - Howell International
  - Control Risks Group:  
[www.crg.com](http://www.crg.com)
  - WMRC
- Freedom House

- Frost & Sullivan
- US State Department + CIA
- Marsh Crisis Consulting
- University of Maryland Center for Conflict Management
- Muir Analytics (Threat Watch)
  - NYA International
  - PRS-ICRG
  - TAC (France)

Michel H. Bouchet/SKEMA-CIFE 2025

4

4

## 2. POLITICAL RISK ANALYSIS

Mapping out the **power structure**  
and identifying the roots of political legitimacy:

- ▶ ideological & repressive (North Korea, Russia, China)
  - ▶ charismatic (Cuba, Venezuela, Nicaragua, Bolivia)
    - ▶ economic/financial (Brunei)
- ▶ authoritarian populism (Thailand, Morocco, Tunisia)
  - ▶ ethnic (Ivory Coast, Ghana)
    - ▶ religious (Iran)
      - ▶ military (Burma, North Korea, Algeria)
- ▶ patron-client relationships (Togo, Congo, Gabon, RCI)

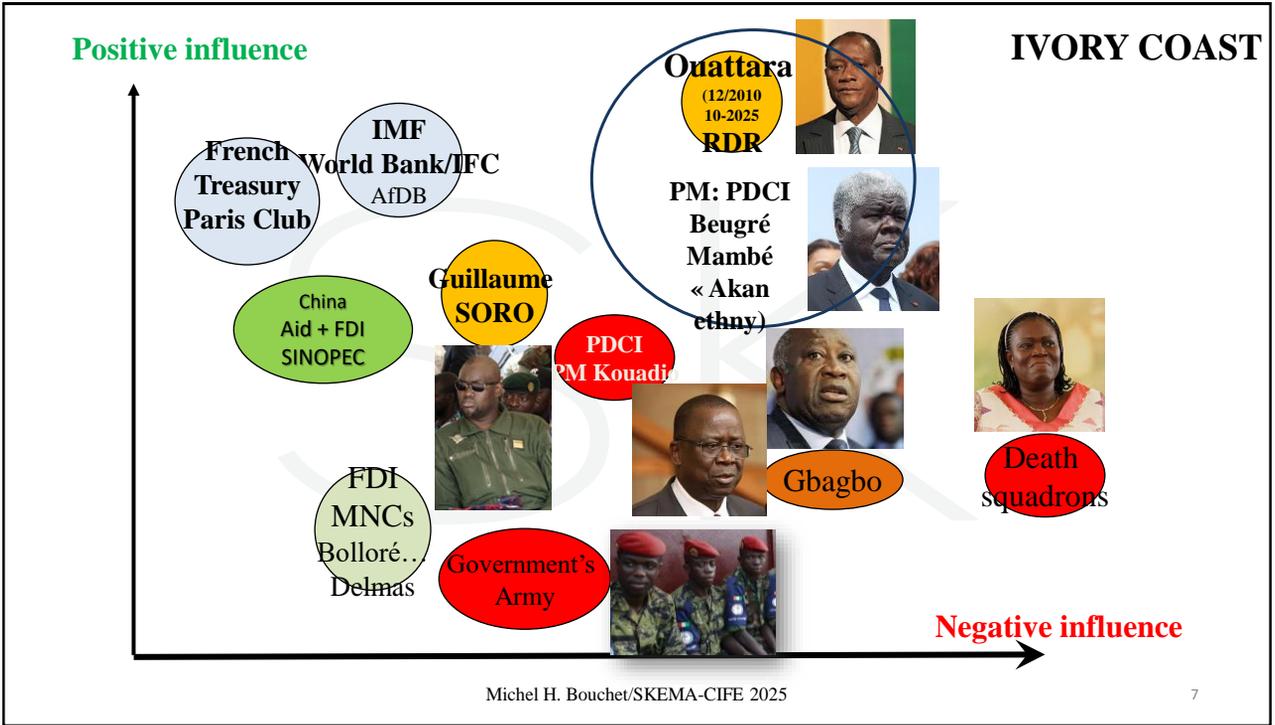

## 3. POLITICAL RISK ANALYSIS: PRINCE MODEL

**Frost & Sullivan:** William D. Coplin and Michael K. O'Leary of the firm Political Risk Services.

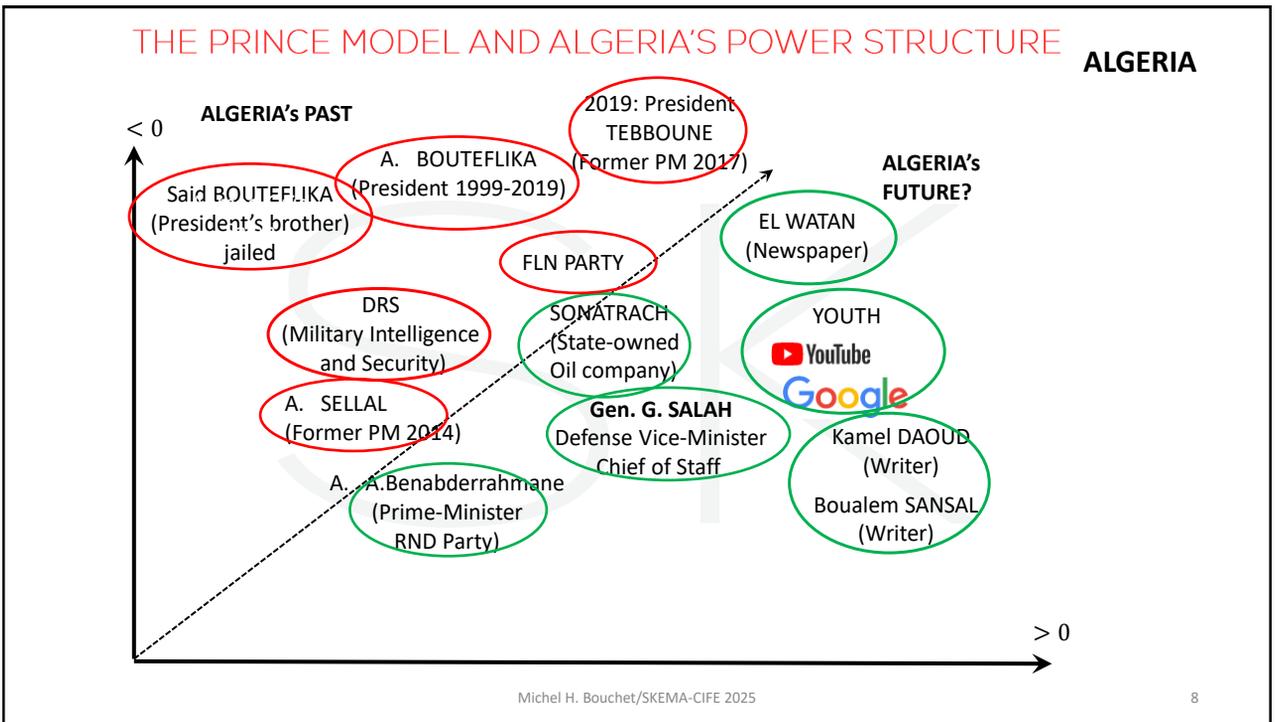

**PRINCE = Probe, Interact, Calculate, and Execute**

Emphasis on the power structure of a nation by identifying key individuals or groups that can influence a specific risk outcome:  
destabilization, nationalisation, expropriation...

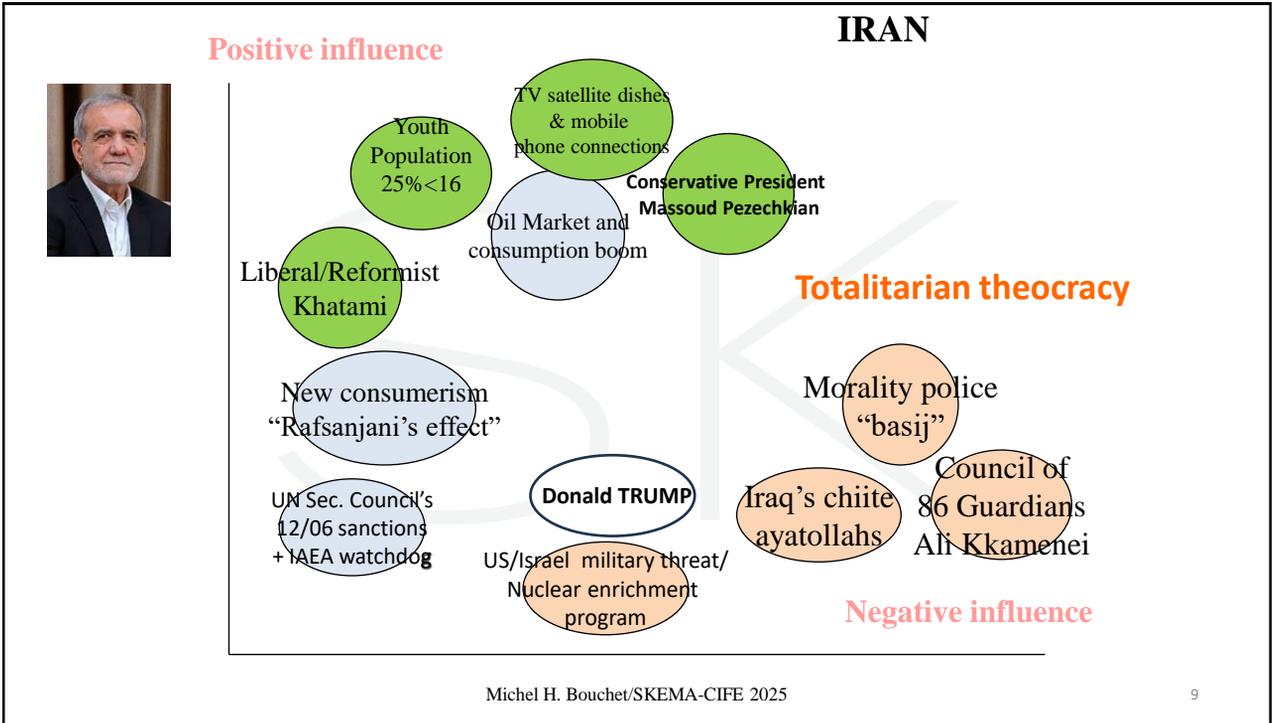

Political risk forecasting model to produce probability of loss from political instability by relating relative importance in decision-making and relative political orientation towards radical or incremental change (+/-)

7

8

9

## 4. QUANTIFYING COUNTRY RISK

### Rating, scoring and Ranking:

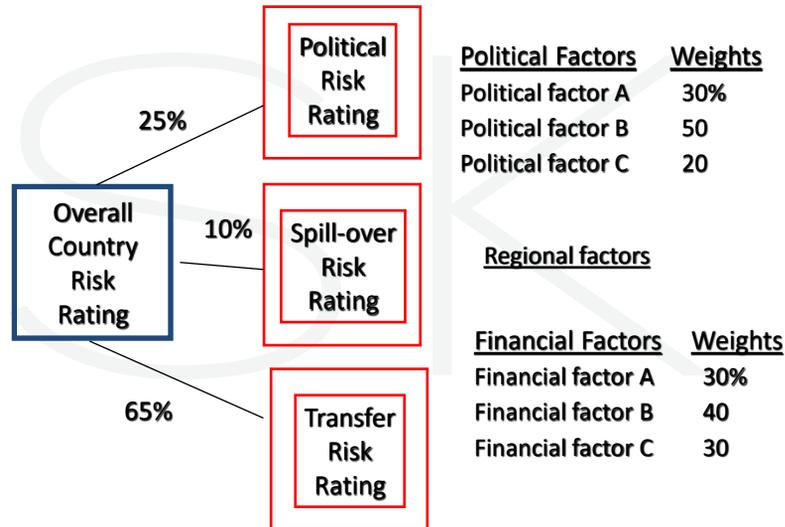

- ▶ Can one boil things down to numerical indices, when dealing with culture, politics, and ethnic tensions?
- ▶ *Problem of "usability" of rankings: number fetishism leads astray by focusing on statistical Delphi-based analyses that are often subjectively biased, misleading and overly narrow. Lack of insight and qualitative research? ([www.useit.com](http://www.useit.com) Jakob Nielsen)*

13

## GLOBAL PEACE INDEX (INSTITUTE FOR ECONOMICS AND PEACE)

A composite index measuring the peacefulness of countries made up of 23 quantitative and qualitative indicators each weighted on a scale of 1-5. The lower the score the more peaceful the country.

### 3 sub-indicators:

1. level of Societal Safety and Security,
2. extent of Ongoing Domestic and International Conflict,
3. degree of Militarization

MHB-Skema-CIFE 2025

## THE FRAGILE STATES INDEX (FUND FOR PEACE)

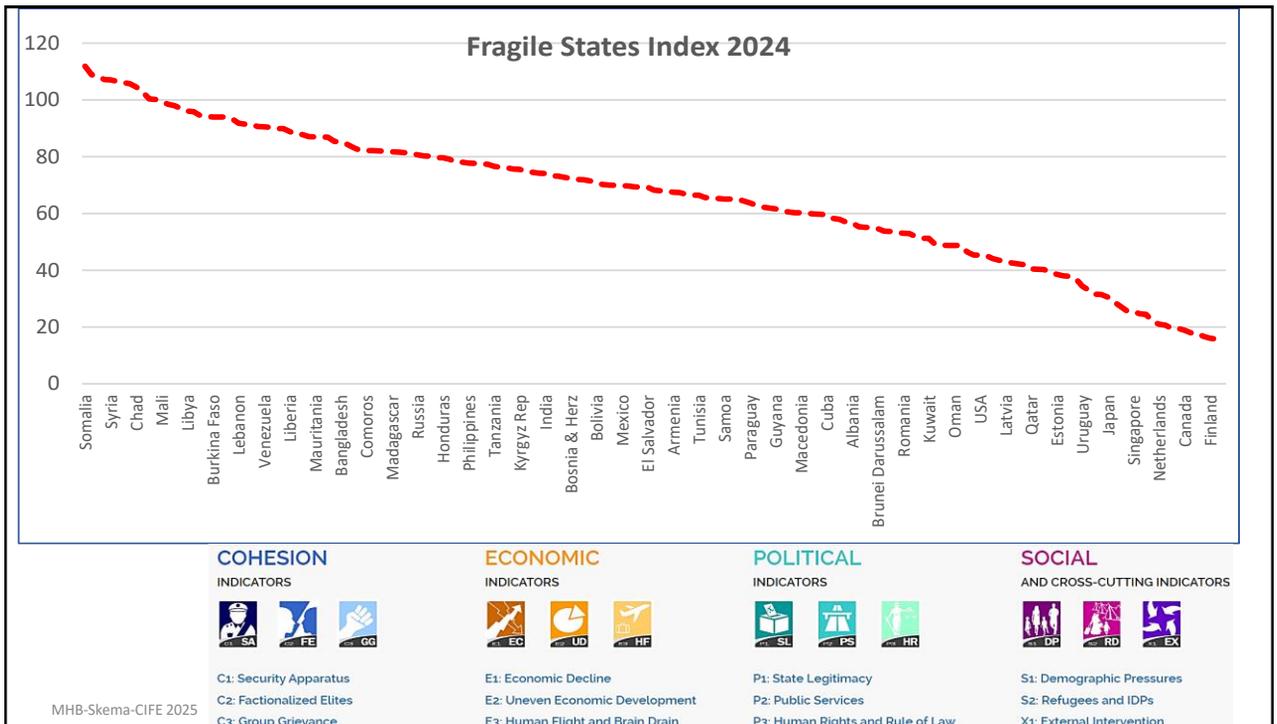

The Fragile States Index = critical tool in highlighting not only the **normal pressures** that all states experience, but also when those pressures are outweighing a states' **capacity to manage** those pressures: assessing the vulnerability of states to collapse.

**Annual ranking for 178 countries with 12 political, economic and social indicators and >100 sub-indicators, coupled with qualitative analysis and expert validation:**  
 Economic decline, uneven development, brain drain, state legitimacy, public services, human rights, demographic pressures, refugees, external intervention, rule of law...

30

31

**The Heritage Foundation**

**HERITAGE FOUNDATION:  
INDEX OF ECONOMIC FREEDOM**

- ▶ **Economic freedom** = *absence of government coercion or constraint on the production, distribution, or consumption of goods and services beyond the extent necessary for citizens to protect and maintain liberty itself*
- ▶ 12 freedoms in 184 countries
- ▶ Broad array of institutional factors determining economic freedom: corruption, non-tariff barriers to trade, fiscal burden of government, rule of law, regulatory burdens, restrictions on banks, labor market regulations, black market activities...

Michel H. Bouchet/SKEMA-CIFE 2025

32

32

## THE HERITAGE FOUNDATION: ECONOMIC FREEDOM INDEX

We measure economic freedom based on 12 quantitative and qualitative factors, grouped into four broad categories, or pillars, of economic freedom:

1. **Rule of Law** (property rights, government integrity, judicial effectiveness)
2. **Government Size** (government spending, tax burden, fiscal health)
3. **Regulatory Efficiency** (business freedom, labor freedom, monetary freedom)
4. **Open Markets** (trade freedom, investment freedom, financial freedom)

Each of the twelve economic freedoms within these categories is graded on a scale of 0 to 100. A country's overall score is derived by averaging these twelve economic freedoms, with equal weight being given to each. More information on the grading and methodology can be found in the appendix.

Michel H. Bouchet/SKEMA-CIFE 2025

33

33

## CRITERIA OF ECONOMIC FREEDOM

- ▶ To measure economic freedom and rate each country, the *Index* is based on 50 independent economic variables, with **four key aspects** of the economic and entrepreneurial environment:
1. Rule of law,
  2. Government size,
  3. Regulatory efficiency
  4. Market openness

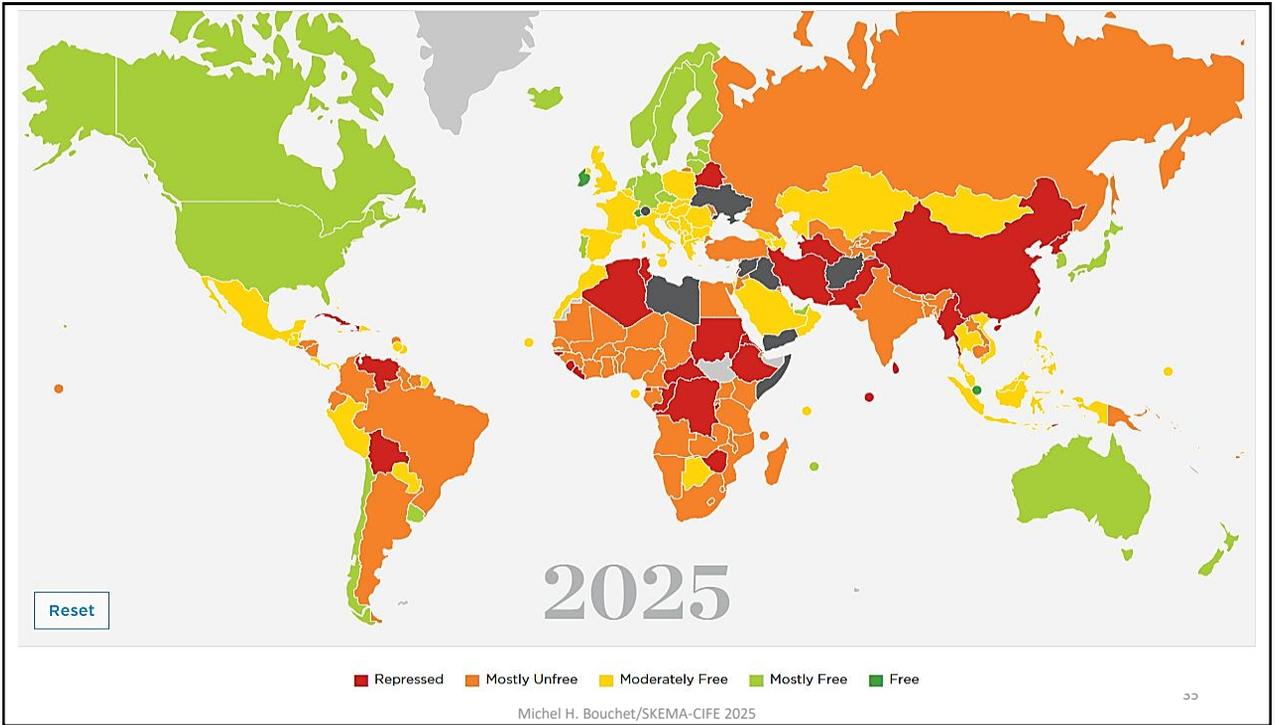

And **12 broad categories of economic freedom:**

1. Trade policy,
2. Fiscal burden of government,
3. Government intervention in the economy,
4. Monetary policy,
5. Capital flows and foreign investment,
6. Banking and finance,
7. Wages and prices,
8. Property rights,
9. Regulation, and
10. Black market activity
11. Public Services
12. Government Integrity

**ECONOMIC FREEDOM**

Damned! Hello GEGPA students! How can you explain that the US Economic Freedom Index is worse than Chile!

Hello GEGPA Students! How can you explain that Italy's index of Economic Freedom is worse than Guatemala!?

Michel H. Bouchet/SKEMA-CIFE 2025

40

## POLITICAL FREEDOM INDEX

- ▶ Since 1972, Freedom House has published an annual assessment of the state of freedom in 195 countries, based on a checklist of questions on **political rights and civil liberties** (Universal Declaration of Human Rights).
- ▶ A country/territory is awarded 0 to 4 points on each of 25 indicators, for a maximum score of 100 points.
- ▶ These indicators, which take the form of questions, are grouped into the categories of Political Rights (0–40) and Civil Liberties (0–60).
- ▶ The two score totals are then weighted equally to determine a country/territory's status of Free, Partly Free, or Not Free.

<http://www.freedomhouse.org/ratings/index.htm>

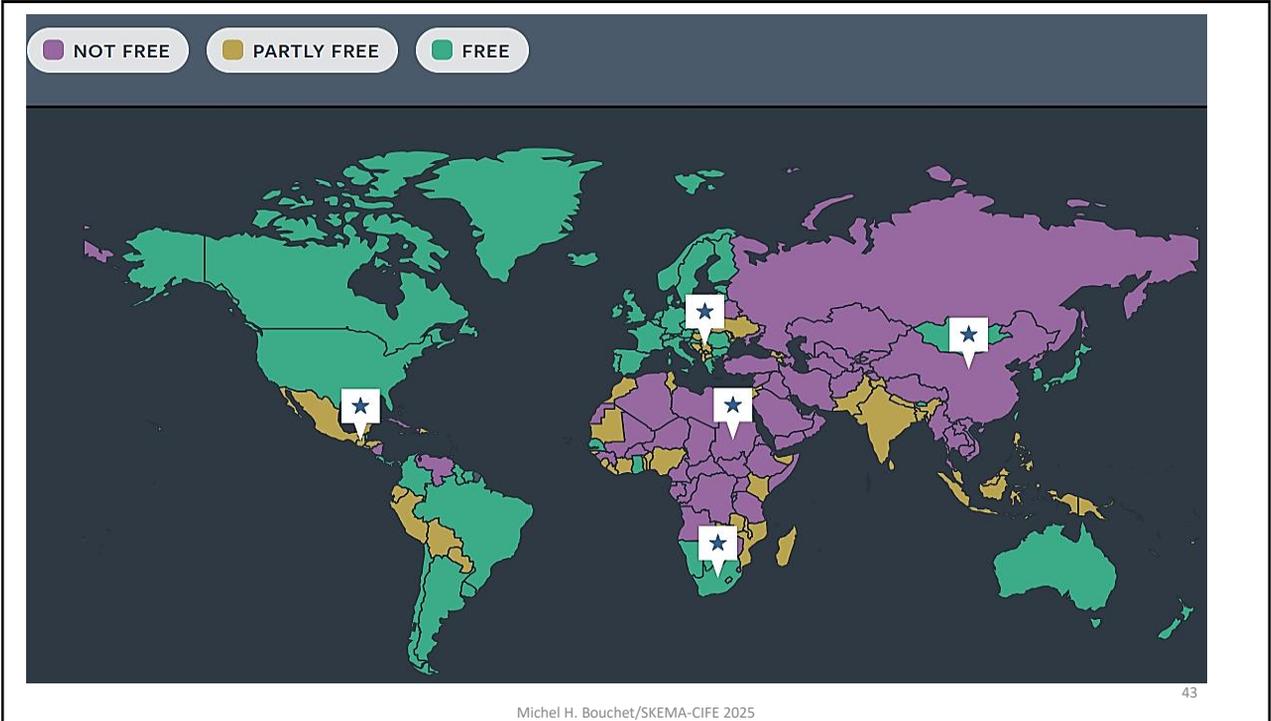

## FREEDOM IN THE WORLD: SEVEN CATEGORIES

### Political institutions

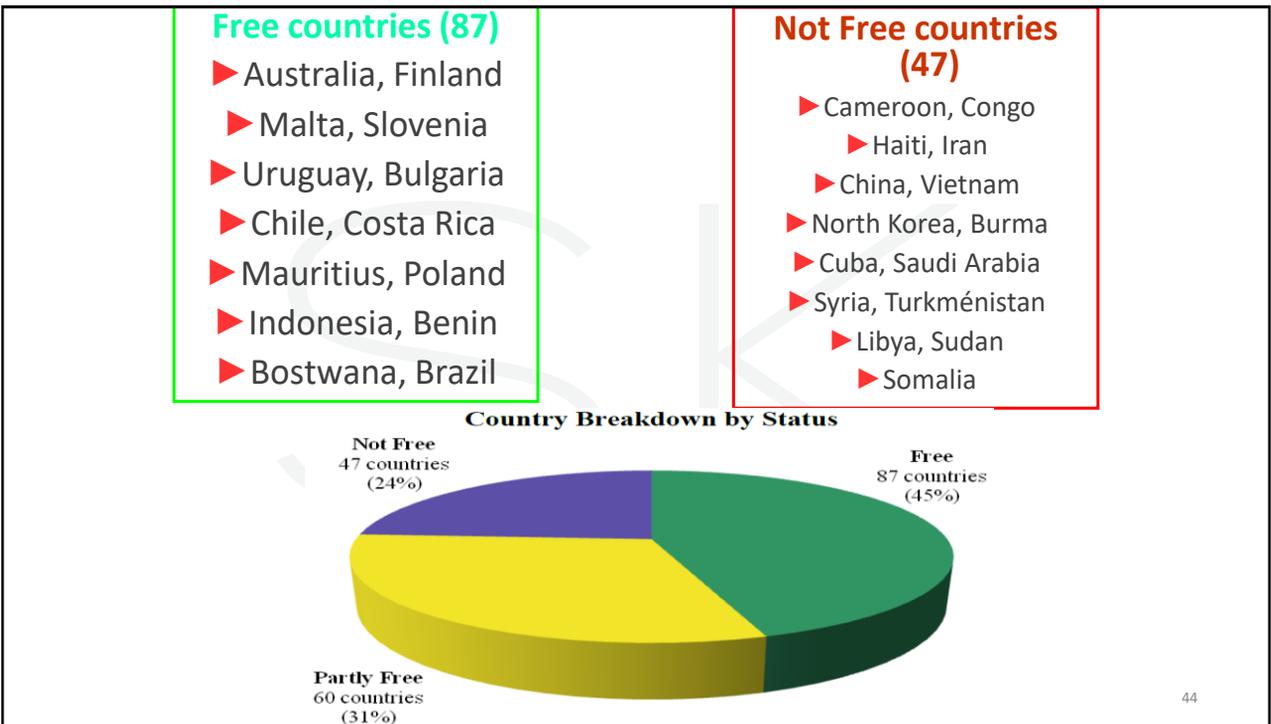

1. Electoral Process: executive and legislative elections, and electoral framework
2. Political Pluralism and Participation: party system, competition, freedom to exercise political choices, and minority voting rights
3. Functioning of Government: corruption, transparency, and ability of elected officials to govern in practice

### Civil liberties

4. Freedom of Expression and Belief: media, religious freedom, academic freedom, and free private discussion
5. Associational and Organizational Rights: free assembly, civic groups, and labor unions
6. Rule of Law: independent judges and prosecutors, due process, crime and disorder, and legal equality
7. Personal Autonomy and Individual Rights: freedom of movement, property rights, personal and family rights, and freedom from economic exploitation

43

44

## FRASER INSTITUTE- ECONOMIC FREEDOM

- ▶ Since 1975, annual Indices of Economic & Human Freedom in the world: reliable measure of cross-country differences in economic freedom, using third-party data to help ensure objectivity
- ▶ **Criteria:** government quality, legal structure, security of property rights, access to sound money, personal choice, freedom to exchange with foreigners and to compete in markets, quality of regulations and institutional strength...
- ▶ **The Economic Freedom Annual Report** is the measurement of **economic freedom**, ranking countries based on five areas: size of government, legal structure and security of property rights, access to sound money, freedom to trade internationally, and regulation of credit, labor and business. The report compares 165 countries and territories

49

## GLOBAL CONFLICT RISK INDEX

DRMKC - Disaster Risk Management Knowledge Centre

The GCRI covers 22 variables in 6 dimensions (social, economic, security, political, geographical/environmental, demographic) reflecting structural conditions correlated to the occurrence of violent conflict.

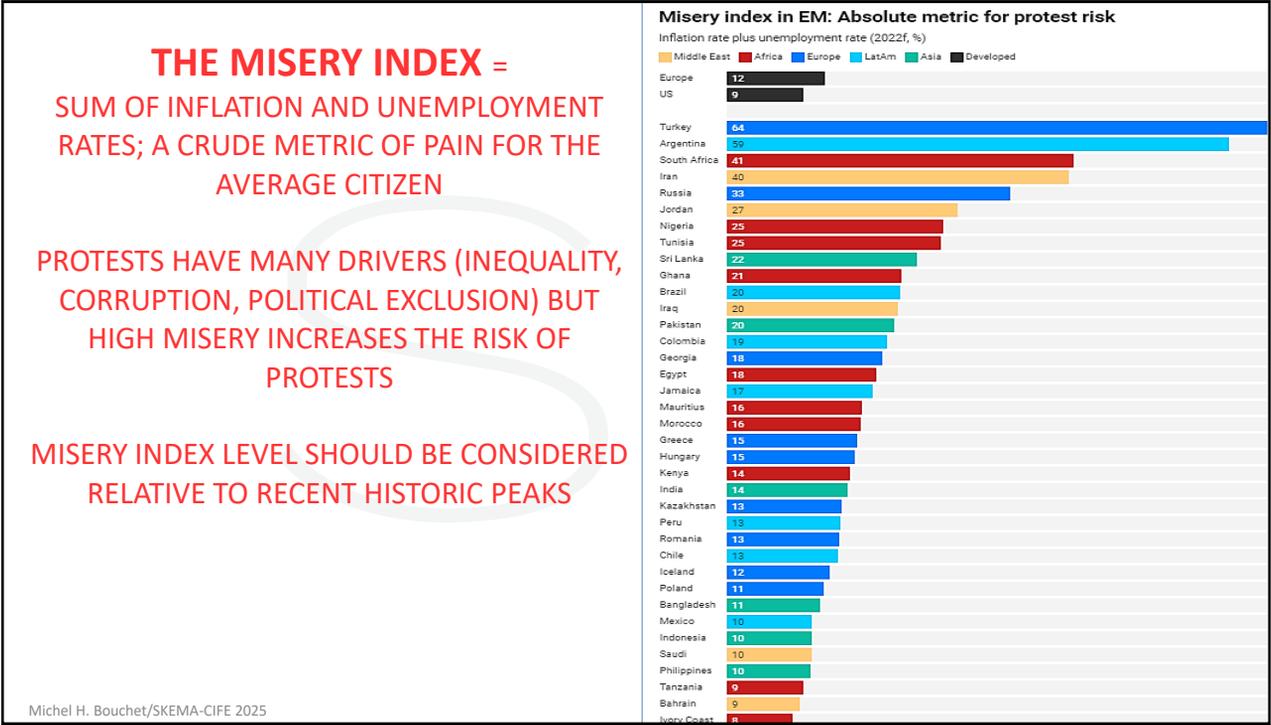

The GCRI uses historical data since 1991 to forecast conflict risk in the next 1-4 years.

Conflict risk scores relate to 4 types of conflict: (1) Any conflict, (2) State-based conflict, (3) Non-state conflict and (4) One-sided violence.
